INTRODUCTION

Montgomery County Government is authorized by State law and/or County Charter to issue debt to finance capital projects. Consistent with County fiscal policy, the County issues debt to finance a major portion of the construction of long-term additions or improvements to the County's publicly-owned infrastructure. The County's budget and fiscal plan for these improvements is known as the Capital Improvements Program (CIP). Bonds are repaid to bondholders with a series of principal and interest payments over a period of years, known as debt service.

This booklet addresses the County's direct debt. Direct debt constitutes the direct obligations of the County that are supported by County taxpayers. Components of Montgomery County direct debt are its general obligation bonds, variable rate demand obligations, bond anticipation notes/commercial paper, long-term notes, and certain revenue bonds issued by the County. The components of direct debt to be included in this booklet are general obligation bonds, variable rate demand obligations notes and revenue bonds.

General Obligation Bonds

County general obligation bonds are secured by the full faith and credit, and unlimited taxing power of the County. Bonds are issued in serial maturities, maturing in 1 to 20 years, normally with five percent of the principal retired each year. This practice produces equal annual payments of principal over the life of the bond issue and declining annual payments of interest on the outstanding bonds. The Charter limits the term of any bond to 30 years.

Variable Rate Demand Obligations

Variable rate demand obligations ("VRDOs") are debt instruments that represent borrowed funds that are payable on demand and accrue interest based on prevailing short-term money market rates. VRDOs are general obligations of the County and are, therefore, secured by an irrevocable pledge of the full faith and credit and unlimited taxing power of the County. The County issued two series of VRDOs which mature on June 1, 2026; however, the County is required by the terms of the Note Order to make annual sinking fund payments to retire one-tenth of the notes each year beginning in 2017. VRDOs are multi-modal instruments that may bear interest in a Daily Mode, a Weekly Mode, a Commercial Paper Mode, a Term Rate Mode or a Fixed Rate Mode. The County's VRDOs were issued in the Daily Mode and currently bear interest at the Daily Rate, which is established by the remarketing agents and re-sets daily. Interest on these obligations is payable on the first business day of each month. Subject to certain terms and conditions describe in the Note Orders for each series, the County may effect a change in mode with respect to the obligations. VRDOs are subject to optional tender upon notice from the owners of the obligations. Also, VRDOs are subject to mandatory tender and purchase as provided in the Note Orders.

In connection with the VRDOs, the County entered into a Standby Note Purchase Agreement on June 7, 2006, with Dexia Credit Local, acting through its New York Branch, which expired on June 7, 2011. On May 25, 2011, the County replaced the existing Standby Note Purchase Agreement with a Standby Note Purchase Agreement issued by Wells Fargo Bank, National Association which will expire on July 15, 2014. The Wells Fargo Note Purchase Agreement requires Wells Fargo to provide funds for the purchase of VRDOs that have been tendered and not remarketed pursuant to such agreement.

General obligation bond and VRDO proceeds are used to provide funds to finance and refinance capital projects of the County described in the County's Capital Budget. These capital projects are divided into project categories. All bond proceeds must be used for the purposes of that particular project category. The project categories are as follows: General County, Roads and Storm Drainage, Parks, Public Schools, Community College, Mass Transit, Consolidated Fire Tax District, and Public Housing.

Bond Anticipation Notes

The County utilizes Bond Anticipation Notes (BANS)/commercial paper for short-term capital financing of capital expenditures with the expectation that the principal amount will be refunded with the proceeds of long-term general obligation bonds. BANS/commercial paper is issued at varying maturities to a maximum of 270 days. The County reissues the notes upon maturity until they are refinanced with long-term general obligation bonds. Because the purpose of the program is to pay BANS with general obligation bonds, only the general obligation bond information is presented in this booklet.

Revenue Bonds

Revenue bonds are authorized by the County to finance specific revenue producing projects such as parking garages, solid waste facilities and liquor control. Debt service is to be paid from pledged revenues received in connection with the projects. Proceeds from revenue bonds may be applied only to the cost of projects for which they are authorized. Revenue bonds are considered separate from general obligation debt, and do not constitute a pledge of the full faith and credit or unlimited taxing power of the County.

County revenue bonds were issued by the Parking Districts and are supported by parking fees and fines, together with parking district property taxes; revenue bonds were issued for the County's Solid Waste Management Division and the Department of Liquor Control, and its debt service is paid for from the revenues of the Solid Waste Disposal System and liquor sales.

Detailed information on Montgomery County's direct debt may be found in the County's current Annual Information Statement, dated January 18, 2011, on the Montgomery County, Department of Finance Debt Management Program website (<http://bonds.montgomerycountymd.gov>).
